

Cloud Connect

High performance private connections to your public cloud services

Applications running in public cloud often need high performance, secure connections to your internal users, applications and data to work effectively. We can connect your Amazon Web Services and Azure environments directly to your own data centre or network environment, or add it to your Claranet private MPLS network. Benefit from high-performance, secure and convenient transfer of data between your environments at a predictable monthly fee. All data charges are included, with no nasty surprise monthly charges.

Why choose Claranet for Cloud Connect?

- Direct connection to your existing DC, colocation environment or Claranet MPLS network
- Expert implementation removes complexity and risk of error
- No additional data charges, just choose the bandwidth you require
- Resilient connectivity into AWS and Azure
- Direct access to broad managed services portfolio

Direct, private connection to Microsoft Azure and Amazon Web Services

Cloud Connect service overview

- Connect to multiple cloud services: Microsoft Azure, Office 365, Amazon Web Services
- Secure private connection
- Lower latency compared with VPN
- High availability 99.99% SLA
- Dual connections from London and Amsterdam provide resiliency
- No data usage charges

Options

- Cloud Connect to your own network, colocation or data centre
- Cloud Connect to your Claranet MPLS network
 - No need for separate bearers means lead-time is days, not months
 - Just choose bandwidth required - no bearer install cost
- Bandwidth options: 10, 20, 50, 100, 200, 300, 400, 500Mbps, 1Gbps

How we work with you

1 - Design

Our experts can advise you on which of our Cloud Connect services is best suited to your business needs.

2 - Build

Setting up these services is often complex, you are connecting public cloud services to more traditional networking technologies. Claranet has the experience of both, working with Claranet public cloud experts removes the burden of provisioning the connection yourself, saving you time and avoiding costly errors.

3 - Manage

We take care of the ongoing 24x7 management and monitoring of the IaaS platform. However, you retain the control and UK support you need.

4 - Evolve

We work with you to ensure your service continually meets your needs.

Cloud Connect business benefits
